

Footnotes

1. Solid tyres available on most models.
2. Varies with user weight, terrain type, battery charge, battery condition and tyre pressure.
3. Battery weight not included.
4. 12 AH battery pack weighs 9.5kg (21 lbs.); 17 AH battery pack weighs 15kg (33 lbs.)
5. Battery pack total weight is 12.25kg (27 lbs.) each.
6. Due to manufacturing tolerances and continual product improvement, this specification can be subject to variance of + or - 3%.
7. Battery pack is 9kg (20 lbs.)
8. Durable solid plastic
9. Deep cycle (AGM or gel cell type recommended)

"The information contained herein is correct at the time of publication; due to Pride's commitment to constant improvement and development, we reserve the right to alter specifications without prior notice".

"Theoretical range is calculated under test conditions in accordance with European standards. Actual range in normal use will depend on many factors, including the condition of the vehicle and its batteries, the weight of the driver, correct tyre pressures, ambient temperature, and the gradient and surface of the road or pavement".
